SUMMARY

Full-stack web developer with nine years of commercial experience, building and maintaining WordPress, WooCommerce, and custom Next.js products for clients in the US, Canada, the UK, and Australia. Top Rated on Upwork with 100% Job Success across 288 jobs, and nearly three years as the contracted WordPress developer for an Australian recruitment-software company. Comfortable owning a project end to end — from a client's design to a fast, maintainable site — and working remotely inside an existing team's workflow.
